

In the Claims:

Amend claims 26 and 33 as follows:

1 - 3 (cancelled).

4 (previously presented).      The sink of claim 26 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

5 (previously presented).      The sink of claim 4 wherein said panel is constructed of metal.

6 (previously presented).      The sink of claim 5 wherein said panel is constructed of a metal different from that of said sink.

7 (previously presented).      The sink of claim 26 wherein said fastener is a bolt for insertion through said hole.

8 (cancelled).

9 (previously presented).      A kitchen counter assembly comprising the sink of claim 26.

10 - 25 (cancelled).

26 (currently amended).      A farm sink adapted to receive an attachable decorative panel, comprising:

a top surface having a depression defining basin of the sink; and

an apron depending downwardly from a front portion of the sink

and forming an integral part of the sink, said apron being

spaced apart from the basin by a substantial gap, said apron

having at least one hole for receiving a fastener for

fastening the decorative panel to the sink, for displaying the

decorative panel on the sink.

27 (previously presented).      The sink of claim 26, wherein said apron has a front surface having a recess adapted to receive the decorative panel, wherein said hole is provided in said recess.

28 (previously presented).      The sink of claim 27 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

29 (previously presented). The sink of claim 28 wherein said panel is constructed of metal.

30 (previously presented). The sink of claim 29 wherein said panel is constructed of a metal different from that of said sink.

31 (previously presented). The sink of claim 27 further comprising at least one bolt for insertion through said hole.

32 (cancelled).

33 (currently amended). A farm sink adapted to receive an attachable decorative panel, comprising:

a top surface having a depression defining basin of the sink; and

an apron depending downwardly from a front portion of the sink

and forming an integral part of the sink, said apron being

spaced apart from the basin by a substantial gap, said apron

having a front surface having a recess adapted to receive

the decorative panel, for displaying the decorative panel on

the sink.

34 (previously presented). The sink of claim 33 further comprising the panel, wherein a front face of said panel is decorated with a three-dimensional decoration.

35 (previously presented). The sink of claim 34 wherein said panel is constructed of metal.

36 (previously presented). The sink of claim 35 wherein said panel is constructed of a metal different from that of said sink.

37 (previously presented). A kitchen counter assembly comprising the sink of claim 33.
